Now Available Through A Special Partnership with

Nichiha sets the standard for great looks and high performance. That's why Nichiha is dedicated to helping you build the perfect home, clad in our fiber cement solutions. We combine the aesthetic of wood with the uncompromising durability of fiber cement, giving you the look you want in considerably less time and for a fraction of the cost.

DURABILITY FOR THE FUTURE...

Thanks to our state-of-the-art technology, Nichiha products give you the wood look you want with the durability our standards demand, providing high level performance that resists rotting, warping, pests and delamination.

NATURALLY ABOVE AND BEYOND...

We want to make sure that our processes help our planet and our customer. Classified as green products and comprised primarily of fly ash, our products divert waste from landfills and put it to practical use. With a long history of conserving resources and employing manufacturing best practices, 90% of all materials used in our manufacturing process are sourced within 200 miles of our facility, 95% of the water used in making our products is recaptured and reused, and 100% of our pre-cured fiber cement scrap is reused.

MAKING CLASSIC LAP SIDING COST-EFFECTIVE

We’re making the traditional attainable and durable with NichiBoard™. Resistant to warping, rotting or falling victim to termites, this panel delivers the look of lap and the performance of fiber cement at a price your budget will love. One of our most popular products, NichiBoard™ continues to be admired by builders and homeowners for its budget-friendly pricing and low-maintenance beauty.

Introducing Factory Finishing Exclusively for NichiBoard™

A BETTER WAY TO PRE-COAT YOUR PRODUCT

Nichi products machine applied finish creates a quality one-coat finish with immediate protection, color uniformity and unlimited color choices. Our factory-finishing in an industrial setting applies factory finish professional grade 100% acrylic exterior coatings at a recommended coverage to your building products in a quality control environment with no overspray, lap marks or weather delays to permit proper curing of the finish with the highest outdoor performance standards. The coated boards are then dried, packaged and shipped to the job site with a 15-year warranty. You pick the color. Let us do the rest!

SAVES MONEY, TIME & IMPROVES QUALITY.
