RS60 Liberty Extruded Rail

Easy installation similar to routed vinyl rail, with the fit and finish of traditional wood rail.

- 

Rated for 10ft residential & commercial level spans
Rated for 10ft residential stair spans
Rated for 8ft commercial stair spans

RS40 Hampton Extruded Rail
RS70 Providence Extruded Rail

Screw-together system that installs faster and easier than comparable composite rail, with the fit and finish of traditional wood rail.

- 

Rated for 10ft residential & commercial level spans
Rated for 8ft residential & commercial stair spans

RS35 Dartmouth Extruded Rail

Screw-together system with all the value of our Hampton Rail, at a larger scale — perfect for commercial and large-scale residential projects.

- 

Rated for 12ft residential & commercial level spans
Rated for 8ft residential & commercial stair spans

RS10-RS20-RS50 Nautilus Milled Rail

Custom milled railing, designed to your exact specifications. Renders custom wood rail obsolete.

- 

Rated for 10ft residential & commercial level spans
Rated for 8ft residential & commercial stair spans

Section 01
Railing Systems

Common Features

Extruded Rail Kits

Nothing adds distinction and definition to homes and outdoor living spaces like a stylish exterior railing. Both beautiful and functional, a deck or exterior railing can be stunningly elegant, classically simple or designed as a wrap-around porch with real curb appeal. Cellular PVC railings are a great choice for your railing system.

All Extruded INTEX Rails:

- Matte Finish - 100% Cellular PVC with Aluminum-Reinforced Core
- Hidden Stainless Steel Fasteners
- Solid Square-Edge Balusters and Square-Edge Posts
- 5" Standard Newel Cover with 6", 8" 10" and 12" Available as Upgrades
- Choice of Pyramid or Flat Newel Cap with Others Available as Upgrades
- Steel Post Mounts for Traditional and Over-the-Post Applications
- Independent Lab Tested And Certified With Code Compliance Research Report (CCRR)
- Do Not Require Paint, But Can Be Painted with a Light Reflective Value (LRV) of 55 or Greater

Common Upgrades for Extruded Kits

How to Order Extruded Rail Kits

Step 1

Select a Structural Post

☐ INTEX Structural Post Mount

☐ Wood Mount Hardware☐ Concrete Mount Hardware

☐ Pressure Treated 4x4☐ Pressure Treated 6x6

Step 2

Select a Newel Post Wrap Size & Style

☐ NEWEL5-EX

Fits 4 x 4 Or Structural Post Mount

☐ NEWEL5

Fits 4 x 4 Or Structural Post Mount

☐ NEWEL6.5

Fits 4 x 4, 6 x 6, Or Structural Post Mount

Step 3

Select a Style & Size for Newel Cap + Base Trim

Injection Molded Cap & Base

☐ IMPC5☐ IMTR5

Cellular PVC Caps & Bases

☐ NCFLAT☐ NCPYRAMID☐ NCHAR5☐ NBTR

For Upgraded Cap Styles See Page 34

Step 4

Select a Rail Profile

☐ RS60 Liberty Rail

RS60275RS60350Bottom Rail

☐ RS40 Hampton Rail

RS40350FRS40350PBottom Rail

☐ RS70 Providence Rail

RS70Bottom Rail

☐ RS35 Dartmouth Rail

RS35400RS35350Bottom Rail

Step 5

Select a Rail Height

☐ 36" Rail Height

☐ 42" Rail Height

Step 6

Select Desired Gate(s) and or Upgrades (If Any)

☐ Single Gates☐ Double Gates☐ Decorative Panels☐ Radius Rail☐ Glass Balusters☐ Glass Panels*☐ 3-Line Rail*☐ Mahogany Top Cap*☐ Lighted Newel Caps☐ Louver Infill*☐ Horizontal Balusters*

Rail Upgrades, *Including Availability By Rail Line, Start on Page 18

Liberty Extruded Rail

Unique Routed Rail System That Saves on Labor and Material Costs!

Unique Liberty Rail Features

- Pre-Routed For Easy Installation - Save On Labor!
- Our 2 3/4" Flat Top Profile Is Irc Code R311.7.8.3 Compliant For Residential Stair Graspability
- Standard Kits Ship With Solid 1 1/4" Square-Edge Baluster
- Optional Hollow Baluster Reduces Material Costs (Available For 6' And 8' Level Spans Only)

Patented Racking Stair System

Pre-routed for easy assembly with an innovative Racking Stair detail that accomodates 18° to 40° Rake Angle.

Longer, Code Compliant Spans

Meets International Residential Code (IRC) for spans up to 10 feet on both level and stair rail.

Popular Upgrades for Liberty Rail

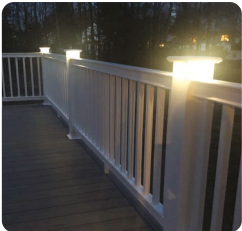

Glass Balusters

Decorative Panels

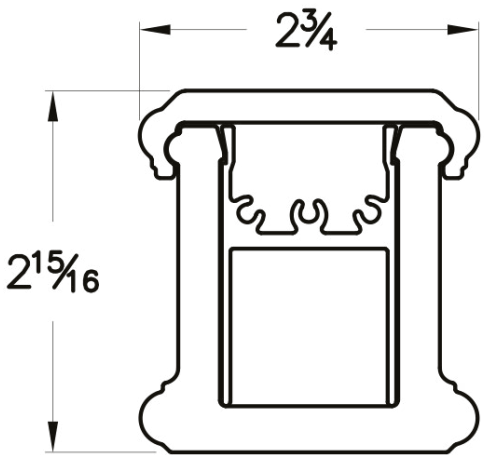

Radius Rail

Lighted Newel Caps

Details For All Available Rail Upgrades Start On Page 18

Liberty RS60275 Graspable Flat Top

2-3/4" Liberty is our simple, beverage-friendly profile. This is a popular profile for both level and stair applications.

Nautilus Milled Rail

How to Order Nautilus Custom Rail

Our premier railing system built by craftsmen just like a wood rail would have been made years ago. The components are milled, assembled, hand sanded and then primed, so they are ready for the finish coat of your choice.

- 3-3/4", 5", 6", 7" And 8" Standard Rail Widths
 - Custom Profiles Available
 - Spans Up To 10' For Ibc Level Application
 - Spans Up To 8' For Ibc Stair Application
 - Multiple Newel Cap Styles Available
- Square, Chamfered, Or Turned Balusters Available In Multiple Sizes
 - Painting Required; Paint Must Be Light Reflective Value (LRV) of 55 or Greater

Step 1

Select a Structural Post

☐ INTEX Structural Post Mount

☐ Pressure Treated 4x4

☐ Pressure Treated 6x6

Step 2

Select a Newel Post Wrap Size & Style

☐ NEWEL6.5
Fits 5" Rail or Smaller

☐ Millwork Newels
Newel Width Should Be At Least 1" Larger Than Rail Width. See page 33 for Millwork Newel Sizes and Styles

Step 3

Select a Newel Cap Style

☐ Non-Skirted Newel Cap
Fits all flush and directional paneled newels

☐ Skirted Newel Cap
Fits all flush and panel 4-side newels

Step 4

Select a Rail Profile

☐ Nautilus RS10500

☐ Nautilus RS20500

☐ Nautilus RS50500

☐ Nautilus RS10600

☐ Nautilus RS20700

☐ Nautilus RS20800

Step 5

Select an Infill

☐ Square Baluster (A)

☐ Chamfered Baluster (B)

☐ T1 Turned Baluster (C)

☐ T2 Turned Baluster (D)

☐ Square Decorative Panel

☐ Full Decorative Panel

Step 6

Select Desired Gate(s) and or Upgrades (If Any)

☐ Single Gate

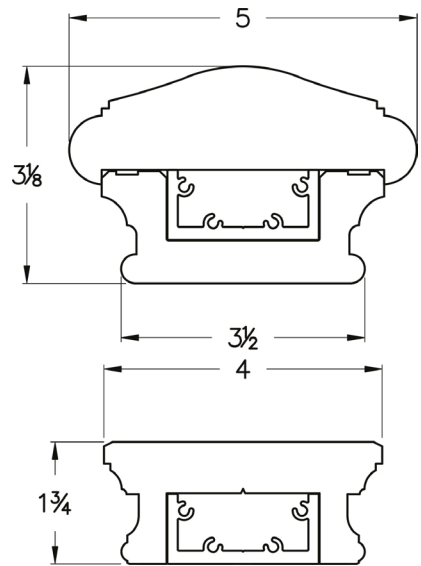

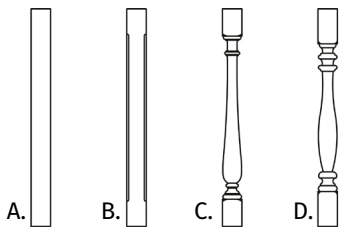

☐ Double Gate

☐ Radius Rail

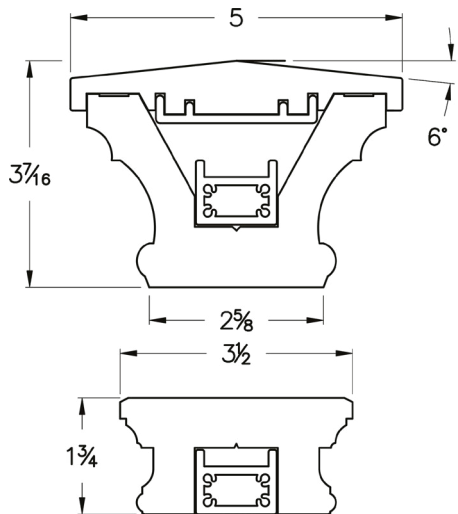

☐ Mahogany Cap

☐ Glass Balusters

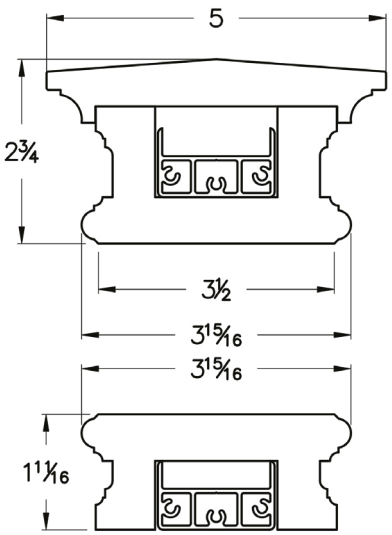

Nautilus Balusters
Standard Nautilus Balusters (shown, right) are available as 1.5", 2", 2.5", 3.5" or 5" widths. Custom balusters are available at all widths and heights.

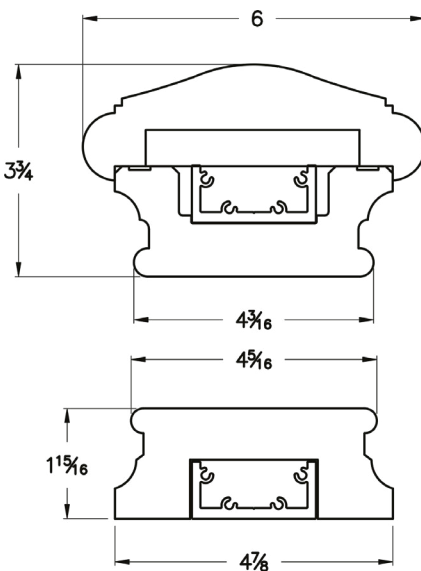

Nautilus RS10500
Works with 2-1/2" Baluster or Smaller

Section 02

Newel Wraps

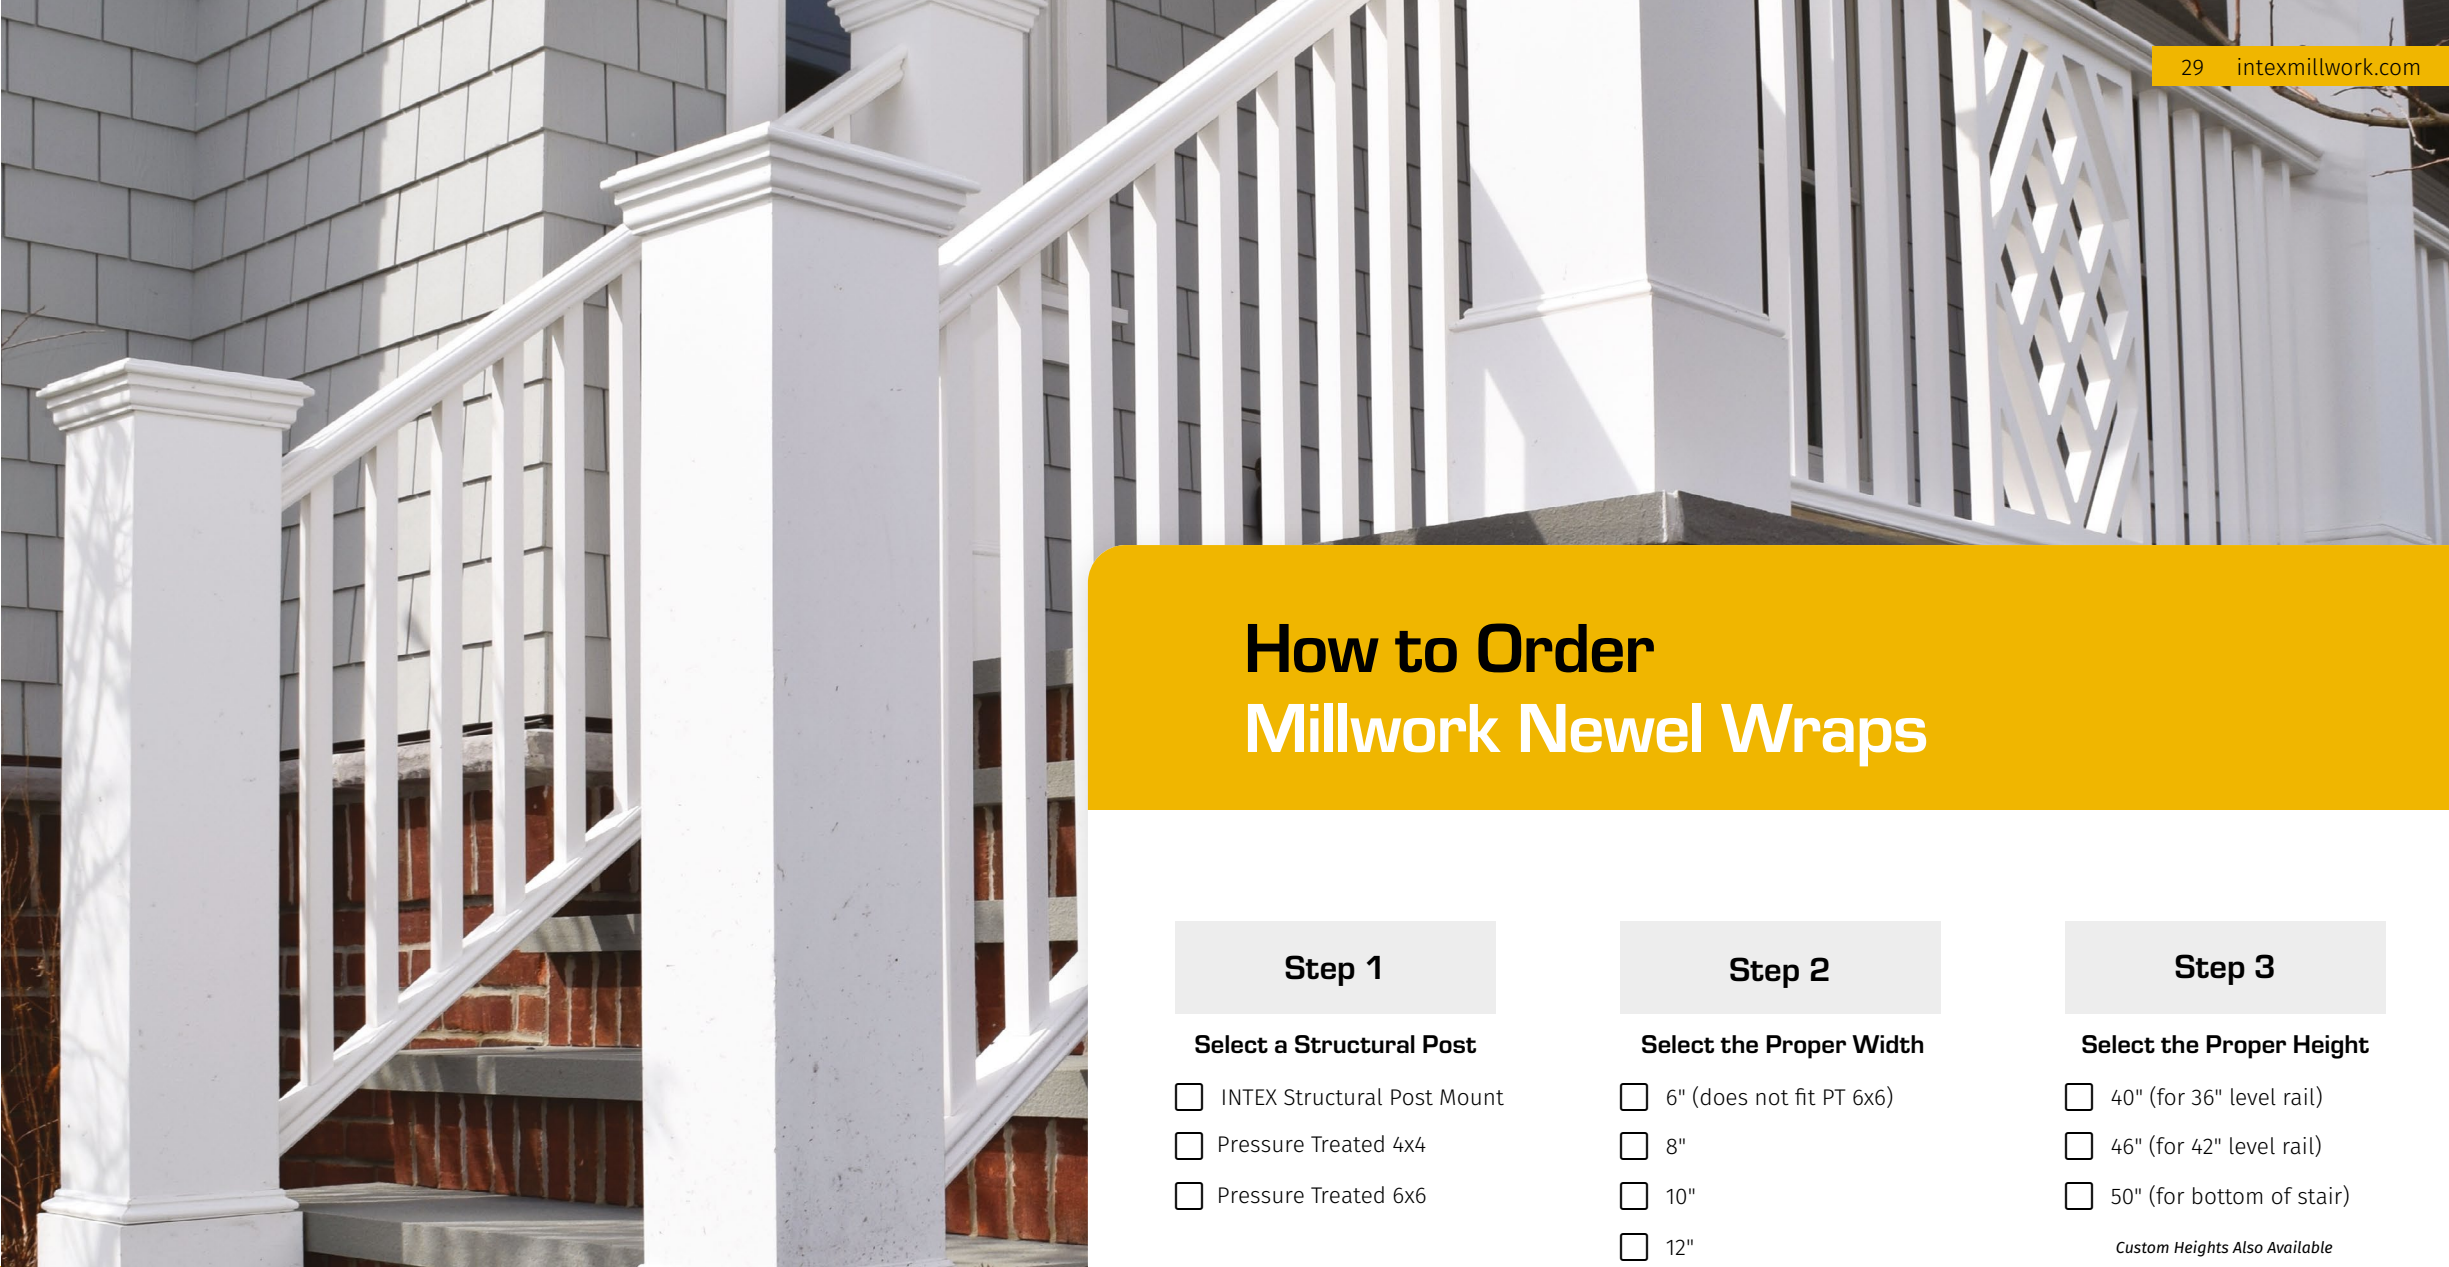

Common Features

Newel & Column Wraps

Wrapped in stylish designs, newels and columns can do double duty as both vital architectural components and dramatic visual elements. Homes adorned with columns and newels convey a feeling of timeless strength and beauty.

All INTEX Newel & Column Wraps:

- 100% Cellular PVC
- Multiple Style Options Available – Flat, Recessed, Raised, Or Chamfered
- Used With Existing Structural Members Or Used In Stand-Alone Non-Structural Applications
- Split Pedestal Options Are Available
- Compatible With All INTEX Rail Systems
- Custom Newel And Column Wraps Can Be Created To Meet Your Design Requirements Or For Historic Restoration
- Do Not Require Paint, But Can Be Painted With A Light Reflective Value (LRV) Of 55 Or Greater

How to Order Millwork Newel Wraps

Step 1

Select a Structural Post

- ☐ INTEX Structural Post Mount
- ☐ Pressure Treated 4x4
- ☐ Pressure Treated 6x6

Step 2

Select the Proper Width

- ☐ 6" (does not fit PT 6x6)
- ☐ 8"
- ☐ 10"
- ☐ 12"

Custom Sizes Also Available

Step 3

Select the Proper Height

- ☐ 40" (for 36" level rail)
- ☐ 46" (for 42" level rail)
- ☐ 50" (for bottom of stair)

Custom Heights Also Available

Step 4

Select a Panel Detail

- ☐ Flush
- ☐ Recessed
- ☐ Recessed with Inlay
- ☐ Raised
- ☐ Chamfered

Refer To Page 33 For Panel Details

Step 5

Select the Panel Orientations

- ☐ Panel 4 Side
- ☐ Line
- ☐ Corner
- ☐ End

Refer To Drawings On Previous Page For More Information

Step 6

Select the Cap Style & Size

Skirted Caps (For Panel 4 Side)

- ☐ NTC-S40
2 Tier Flat Cap with Skirt
- ☐ NPTC-S40
Pyramid Cap with Skirt

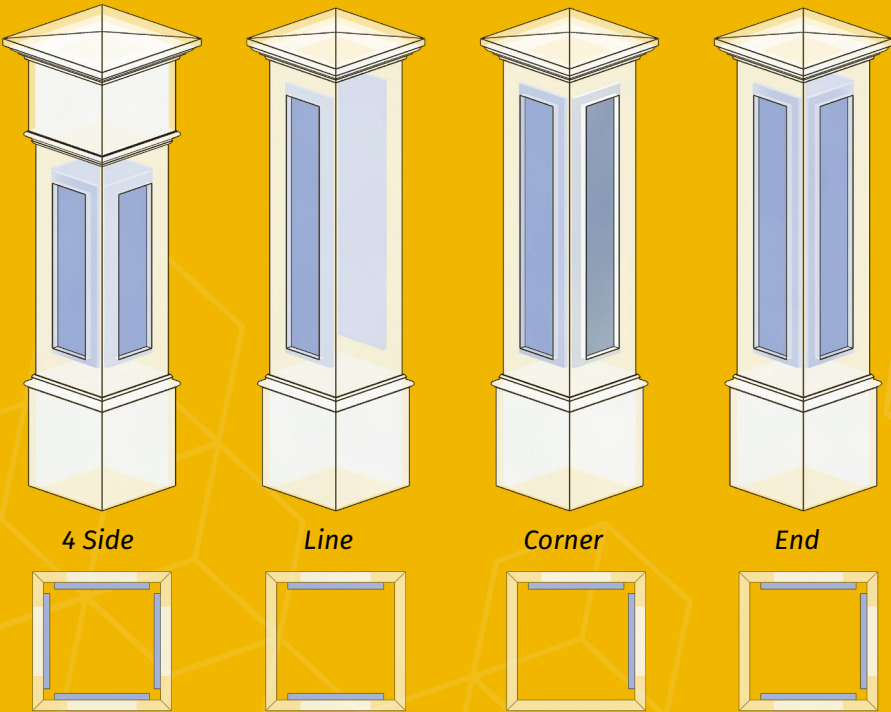

Non-Skirted Caps (For Line Corner End)

- ☐ NTC
2 Tier Flat Cap
- ☐ NPTC
Pyramid Cap

For More Newel Cap Styles See Page 34

Short Panel 4-Sides vs Line, Corner, and End Newels

- Short Panel 4-Side Newels Are Predominantly Designed For Skirted Newel Caps (Top Rail Dies Into Skirt, Not Newel Face)
- Short Panel 4-Side Can Be Used When The Supplier Doesn't Know Newel Locations, But It Is Not Recommended (Inferior Detail)
- Skirted Newel Lids Cannot Be Used With Line, Corner, And End Newels
- Line, Corner, And End Newels Are Designed To Give A Full Panel Detail On Non-Rail Side And Flush Panel Face On Rail Side

Newel Wraps Structural Post

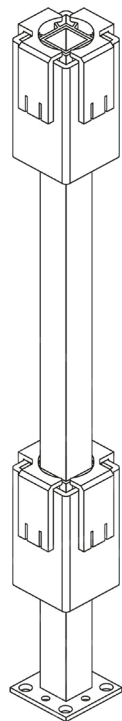

Post-Mount & Hardware

- Structural Post System Requires 2 Items To Complete
- NEWELPOST36/42 (Structural Post) **Along With One Of The Following:**
 - NEWELMOUNT-W (Through Bolt Detail) **OR**
 - NEWELMOUNT-C (Lag Bolt Detail)
- Includes #10 x 1-1/2" Rail Attachment Screws For Proper Fastening Of Rail To Post
- Works For Both 36" & 42" Rail Heights
- Includes Injection Molded Compression Shims For Easy Use With NEWEL5 & NEWEL5-EX

Section 03
Column Wraps

How to Order Column Wraps

Step 1

Select Structural Post

INTEX Column Wraps Are Non-Structural

- ☐ Pressure Treated 4x4
Works With All INTEX Columns
- ☐ Pressure Treated 6x6
Does Not Fit 6" Column
- ☐ Pressure Treated 8x8
Does Not Fit 6" or 8" Column

Step 2

Select the Proper Width

Custom Column Widths Also Available

- ☐ 6" Column
Does Not Fit Over PT 6x6
- ☐ 8" Column
Does Not Fit Over PT 8x8
- ☐ 10" Column
- ☐ 12" Column

Step 3

Select the Proper Height

Custom Column Heights Also Available

- ☐ 8' Column
- ☐ 9' Column
- ☐ 10' Column
- ☐ 12' Column

Step 4

Select the Panel Detail

- ☐ Flush Panel
- ☐ Recessed Panel
- ☐ Recessed Panel with Inlay
- ☐ Raised Panel
- ☐ Chamfered

Step 5

Select the Panel Orientations

- ☐ Panel 4 Side
- ☐ Split Panel 4 Side
- ☐ Line, Corner, End

See Previous Page For Details

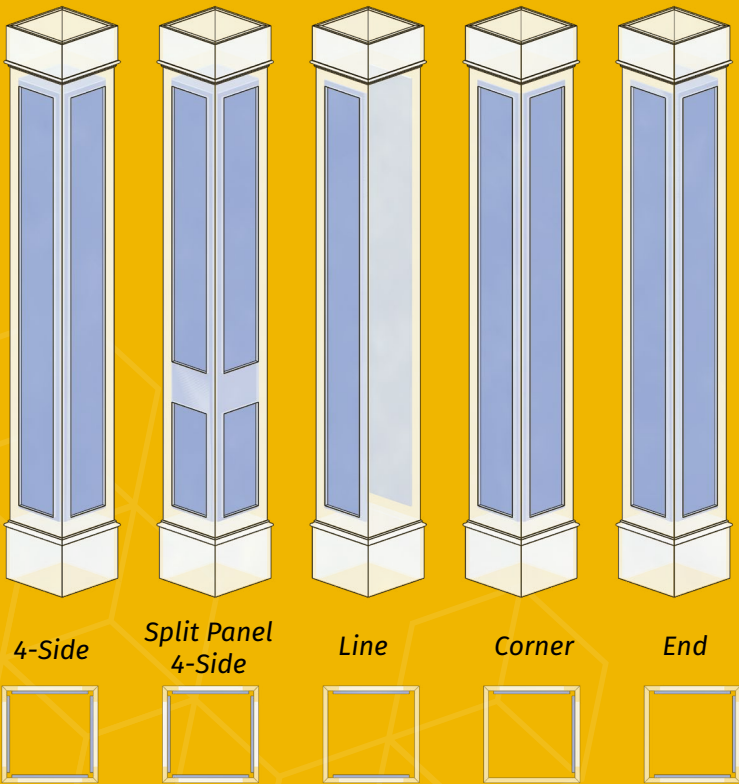

Step 6

Select Cap & Base Style

- ☐ Style H Standard (Included)
- ☐ Style A
- ☐ Style B 164 BC
- ☐ Style C 75 BED
- ☐ Style D 163 CROWN
- ☐ Style E 49 CROWN
- ☐ Style F WM97 CASING

Panel 4-Side vs. Split Panel 4-Side vs. Line, Corner, End

- Panel 4-Side Does Not Make Accomodation For Rail Mounting
- Split Panel 4-Side Has Check Rail For Rail Mounting (Standard Check Rail Height To Accomodate 36" Rail, All Other Heights Must Be Custom Quoted)
- Line, Corner, & End Columns Have Full Panel On Non-Rail Side, And No Panel On Rail Side

Column Wraps Knocked Down Easy Wraps

Millwork & More

Window Surrounds, Entry Systems, Mouldings & Trim

Window Surrounds

A home isn't finished until it's dressed in a style all its own. Accentuate your home's existing architecture by using window surrounds. INTEX Window Surrounds can be manufactured to fit any shape or size window. With our large selection of frame, crown and sill options, INTEX surrounds save time and eliminate scrap connected with building surrounds on-site.

Millwork & More

Additional Capabilities

Our Team Of Skilled Craftsmen Offer Limitless Custom Millwork Design Options!

From intricate details to innovative finishing touches, INTEX PVC custom millwork is created using advanced CAD design technologies, state-of-the-art fabrication equipment and hand-crafted techniques once reserved only for wood.

Craftsmanship That You Can Trust
Architects and builders rely on INTEX's strengths in both traditional workmanship and engineering technology to craft intricately detailed, high-quality millwork for distinctive homes and buildings.

- Some of Our Custom Millwork Capabilities:**
- Produced to precise design specifications, fabricated to order, packaged securely so that product arrives damage free – ready for installation.
 - Custom replication of brackets and other architectural details allow for a more accurate restoration.
 - Custom lattice and panels provide a stylish sense of security.
 - Custom railings and balusters per architect specs give a unique, elegant look.

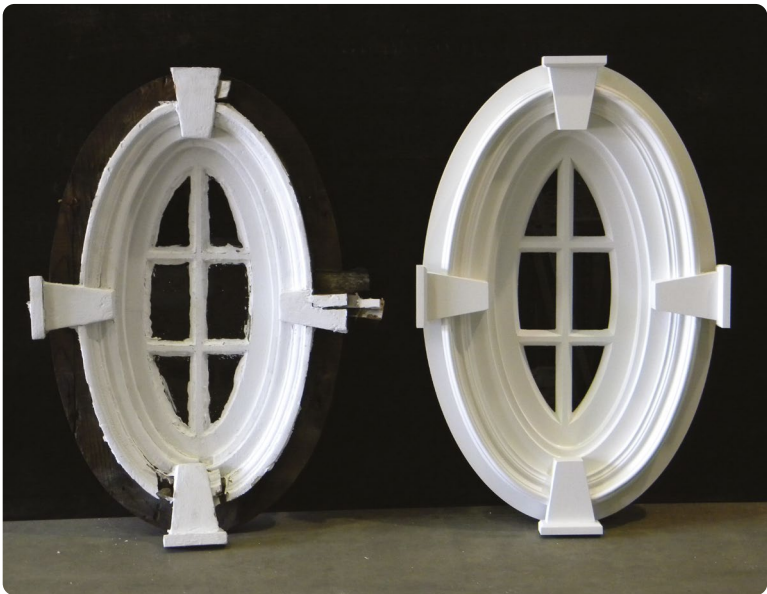

Contact Us Today To Discuss How We Can Bring Your Custom Millwork Ideas Come To Life!

Commercial Applications

Our Engineered Products Meet International Building Code

You can count on the unsurpassed performance of INTEX's engineered systems. Innovative technology and fine craftsmen give INTEX the ability to meet any design specification. The easy to install INTEX "system" approach will also lower your construction labor costs.

Historic Restorations

The Ability To Match Details & Craftsmanship Of The Original Millwork

The experienced skilled craftsmen at INTEX have the knowledge and creativity to protect and preserve your home's architectural heritage. By using INTEX's talent and innovative technology, intricate ornamental detailing and exquisite finishing touches can be readily created.

For the Architect Training & Education

Resources

We understand how important your reputation is — every structure you build needs to meet your clients’ standards, and with INTEX Millwork Solutions, you can rest assured that your projects will exceed expectations.

intexmillwork.com hosts important architectural resources, from DWG and PDF drawings, to Revit downloads, to our comprehensive installation instructions, and more. Every detail is considered to make your job easier!

AIA & LA CES Continuing Education

INTEX Millwork Solutions recognizes the importance of continuing education in architecture and is very proud to be a registered provider with AIA.org and ASLA.org (LA CES).

Our Sales Reps are happy to host a class at your office, at our facility in Mays Landing, NJ, or via video conferencing.

Classes (including our accredited Plant Tour) hosted at our facility will enjoy a tour of our new shop floor and a detailed overview of our brand new show room.

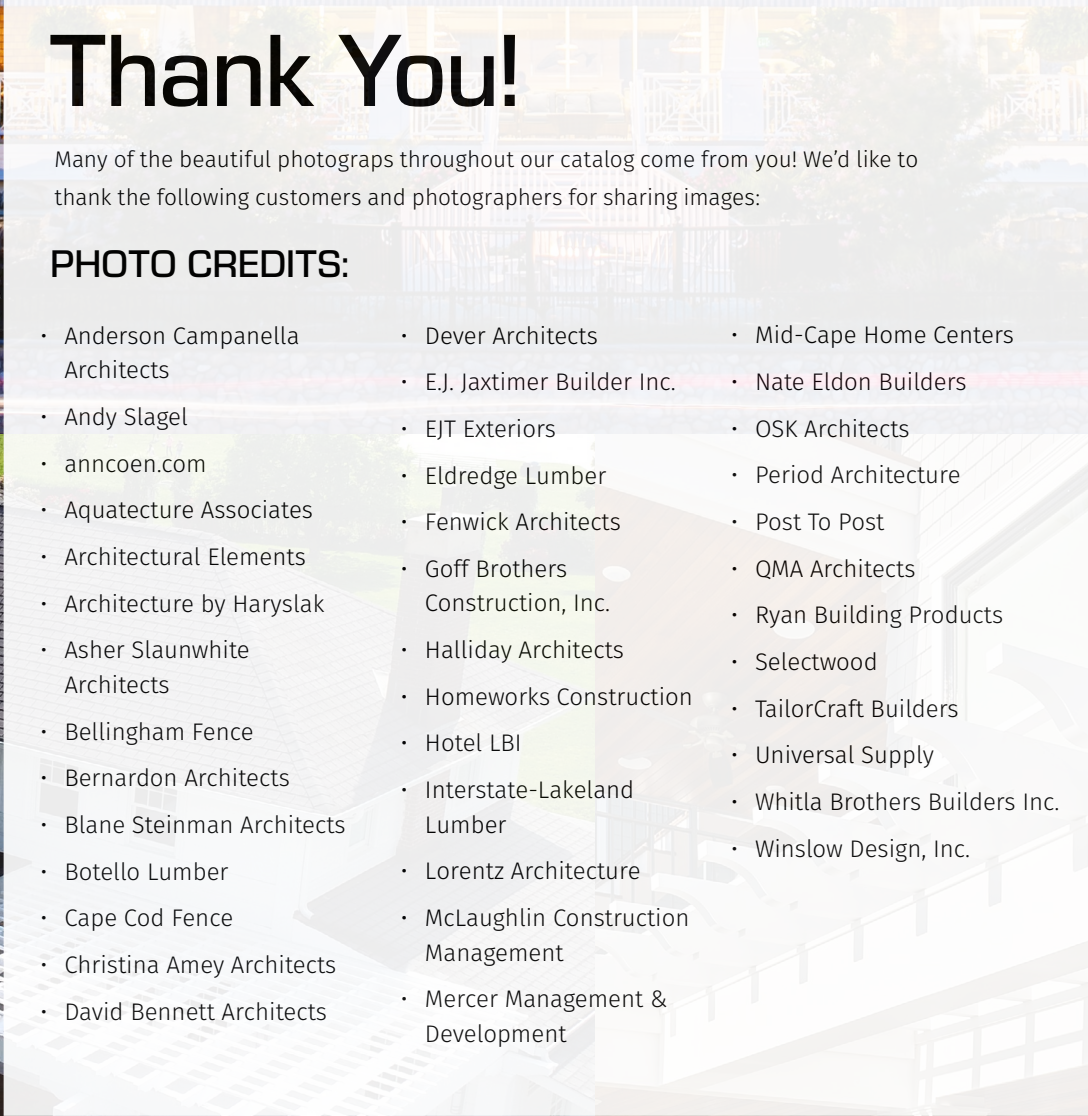

Thank You!

Many of the beautiful photographs throughout our catalog come from you! We’d like to thank the following customers and photographers for sharing images:

Available AIA and LA CES Courses

INTEXTOUR: INTEX Millwork Plant Tour | 2 AIA LU

Students will experience a detailed, inside look at the manufacturing process of INTEX Millwork Products. They will see first hand the entire production process, from raw materials to finishing, engineering, estimating, packaging and more.

INTEX20150126: Understanding the Benefits of Cellular PVC Rails and Pergolas | 1 AIA LU | 1 LA CES PDH

Students will gain a basic understanding of the benefits of specifying cellular PVC (Poly Vinyl Chloride) railing systems, pergolas and gutters for residential and commercial construction projects. Traditional materials like wood, vinyl, and composite materials have been the standard choices available for years, but these materials pose several challenges in aesthetics, durability, affordability, and limited design options.

INTEX-POOLCODE: Swimming Pool Enclosure Code Requirements Explained | 1 AIA LU, HSW | 1 LA CES PDH

Students will learn the details of swimming pool enclosure code requirements to ensure specific design and materials meet standard building code criteria for barrier and access requirements.

INTEX2020HSW: Hand Rail Code Requirements & Design Considerations | 1 AIA LU, HSW

Students will learn the details of railing systems code requirements and testing to ensure they meet IRC and IBC Building Codes. Integrating design elements based on materials and span limits into the structure architecture.

FREQUENTLY ASKED QUESTIONS

Can INTEX products be painted?

Yes, due to the inherent expansion and contraction characteristics of PVC, INTEX's PVC millwork products should only be painted colors with an LRV (light reflective value) greater than 55.

How do you clean Cellular PVC?

Cleaning all INTEX products are easy and fast with most major household cleaners. For specific recommendations and instructions, visit intexmillwork.com. Harsh cleaners with glycol ethers or ethanol type solvents and/or isopropyl alcohol are not recommended.

How long do INTEX products last?

INTEX products are designed to last in the harshest of environments. For this reason, all INTEX Millwork Solutions products carry a lifetime limited warranty.

Where can I purchase INTEX products?

Visit intexmillwork.com to find an authorized dealer near you.
