

Since 1989, Signature Door Inc., has been manufacturing one-of-a-kind custom wood doors and decorative glass in Altoona, PA. We are proud of all of our talented people who put time and attention into each detail to craft our customers' dreams and desires into reality. Each entryway is so individualized that it has a serialized coin located in the jamb behind the door to identify it. This book is a snapshot of some of the beautiful and unique projects of which we have been a part.
