### INTRODUCTION

Enhance the architectural allure of your home with our stunning selection of Stone & Timber textured polyurethane products. Expanding the appeal of our Fypon collection, our elegant enhancements can now be applied to contemporary homes crafted with stone and stucco as major themes.

Combining traditional, old-world styling with a mesmerizing, modern-day design, our timber products provide a picturesque transformation for exquisite, high-end homes. Constructed from durable, high-performance polyurethane adorned with authentic woodgrain textures, our timber products serve as a sophisticated alternative to real wood. Fypon offers an attractive assortment of premium-grade products to help create a delightful, distinctive look for any home, in any region of the country.

Carefully crafted with lightweight, high-density polyurethane, our state-of-the-art stone enhancements are the perfect pick for creating a flawless finish to entrances and windows. A convenient, cost-effective alternative to real wood or stone, our textured stone and timber products come factory-primed and prepared for installation\* over an array of home exteriors, including stucco, brick, stone and vinyl.

Aside from aesthetic appeal, our Stone & Timber line was built to endure the harshest weather elements. Unlike wood or pre-cast concrete counterparts, our textured polyurethane products resist warping, splitting, moisture and insect infestation, providing peace of mind with a long-lasting, low-maintenance product.

The following guidelines will help you when using this catalog and choosing Stone & Timber products for your project:

- · Dimensions shown are actual sizes.
- All shutters are sold in pairs, except for the board panels for shutter fabrication, which are sold individually.
- All Stone & Timber products are factory-primed with an oatmeal primer (unless otherwise noted) and are ready to be stained or painted.

#### **Cutting & Milling**

Fypon® polyurethane products can be cut and trimmed with standard woodworking tools. Table saws, circular saws, jig saws, band saws and miter saws will give you excellent results during the installation process.

Note: Trimming textured product will remove the texture and create an exposed polyurethane edge. This edge must be patched with standard wood filler and finished with paint or stained to protect the exposed polyurethane from discoloration from the sun.

For our complete product offering, please refer to our polyurethane full line catalog or visit www.fypon.com.

#### **Stone & Timber Textures**

All Stone & Timber products feature a realistic woodgrain or stone texture on all surfaces visible when installed. Because many of these products have been moulded from real wood or concrete elements, the depth and pattern of the texture may vary slightly from category to category.

Most of the timber products have a texture that resembles sand-blasted cedar. Some products are exceptions, and close-ups of their textures are shown below.\*\*

### ELEVATING THE STANDARD

#### **STYLE**

An eye for detail. A history of durability. The design expertise to benefit every project. Fypon delivers lasting style for homeowners, and helps builders add beauty to every home. From ornate to understated, vintage to modern, we've designed an incredible range of millwork products that transcend into timeless styles.

### **PERFORMANCE**

Fypon polyurethane products differ from traditional building materials because they have a closed-cell structure. They cannot be penetrated by moisture or insects. So whether your project calls for functional or decorative pieces, you get added durability - without rotting, warping, cracking, chipping or peeling — and fewer call-backs. Along with superior performance, Fypon products are easy to work with. They do not require special tools for installation, and come ready to paint or stain.\*

### **PARTNERSHIP**

Choosing Fypon also
means getting the
service and support
you need at every
phase of your project.
Beginning with planning
and takeoff, we're a
reliable partner all the
way through project
completion. And as an
industry leader, we of
course offer a Lifetime
Limited Warranty\*
for homeowners.

<sup>\*</sup> See www.fypon.com for complete warranty details, exclusions, and instructions on proper use of adhesives and painting.

### FEATURES & BENEFITS

Lasting performance and minimal upkeep compared to other materials.

Lightweight and does not require special tools.

Polyurethane smooth or textured — comes pre-primed and ready to paint or stain.\*

Our closed-cell polyurethane is resistant to insects.

Ideal for moisture-prone interior spaces like bathrooms, kitchens and basements.

Beautiful and durable in all seasons, withstands the elements better than traditional materials.

<sup>\*</sup> See www.fypon.com for complete warranty details, exclusions, and instructions on proper use of adhesives and painting.

### TRY OUR FREE, FULL-SERVICE TAKEOFF SOLUTION

Teaming up with Fypon is the smartest partnership around. We deliver expertly designed, authentic looking millwork that is built using high-quality, durable polyurethane. And we are delivering additional value to the industry by offering builders a complete — and absolutely free — takeoff service.

The building pros at Fypon know the details and decisions that go into every project, so we offer a comprehensive takeoff service that helps builders match their needs with the high-quality products in our comprehensive millwork portfolio.

Our takeoff service helps make it easy to use Fypon products to add beauty to your home projects, without takeoff hassles, and ultimately fewer callbacks.

This complimentary service delivers everything you need to get your project started, including quantity pricing, drawings with Fypon parts in context, and installation and warranty details. A Fypon builder services representative will also be available to assist you every step of the way.

### PROJECT QUOTING SERVICES

- Help with completing quotes for any project large or small, standard or custom contact: projects@fypon.com
- Specialized construction software creates accurate, digitized takeoffs from your construction prints
- Request for Quote: Pricing for one part or multiple parts to meet the needs of small projects
- Large Project Quoting: From single-family homes to commercial buildings
- Easy-to-read Project Quote Package for large projects: Quantity pricing, breakouts that show parts in context of the prints, installation information, warranty information and more drawings created on as needed basis

### CUSTOM SERVICES

- Alter a standard part to match aesthetic and dimensional specifications
- Additional Sizes: Such as crossheads in custom widths
- Add keystones, dentil trim and bottom trim to standard parts
- Route channels in standard parts, such as window and door trim and louvers, to accept siding
- Turn your sketch and dimesions into almost any millwork or trim product imaginable
- Custom shapes, sizes and profiles for that special job
- Authentic replicas for historical restorations
- For assistance contact CPS@fypon.com

#### Window & Door Trim

Create crisp, clean lines when trimming your stucco house by using Fypon stone surrounds. Re-create the refined resilience of real wood with Fypon® timber shutters. Resistant to splitting, rotting and flaking, our textured timber shutters deliver dependable durability, making them the superior solution for accenting exterior windows. Our attractive assortment of window trim comes in an array of sizes to accommodate various architectural styles. For a more customized approach to shutters, Fypon offers fabrication boards to cater to the style requirements of customers.

### **Decorative Millwork**

Fypon offers a lovely line of decorative millwork for adding delightful distinction to the interior or exterior of the home. Traditionally used to revive Victorian charm, our woodgrain and stone textured decorative elements can also deliver carefully crafted, artistic allure to existing décor, or be attractively arranged to bring out a more ambient, authentic appeal.

Add definition and distinction to spacious living areas with Fypon beams. Our stainable timber designs are suitable for an array of architectural applications. Additionally, our collection of corbels provides a stylish solution for adding subtle sophistication to overhangs or along the top of a wall.

#### Louvers

Fypon® louvers add aesthetic appeal to any gable, our functional timber louvers provide additional ventilation for attics in the summer. Serving as a delightful, decorative element enhancing the exterior of a home, Fypon louvers add an attractive accent to complement an array of architectural styles. Unlike real wood, our lovely louvers won't split, flake or chip, and will retain a refined, beautiful appearance for years to come.

### **Balustrade Systems**

When it comes to re-inventing outdoor living spaces, there's no better way to establish beautiful boundaries than with our alluring balustrades. As an attractive alternative to stone, these premium-grade polyurethane products replicate the look and feel of pre-cast concrete without all the weight. Built to endure the elements, they will never crumble or deteriorate like their concrete counterparts. Aside from serving as alluring accents to stucco and stone facades, our balustrades can be used to add definition and distinction to any porch, balcony or patio area.\*

### Porch Posts, Columns & Post Wrap

Our stone columns offer a refined resemblance of real pre-cast concrete architectural elements. They are designed to add old-world allure to home exteriors.

Use our decorative timber wraps to add the perfect finishing touch. The wraps are designed to install easily around an existing structural support. Also available is our structural woodgrain column. Each piece is shipped with an oatmeal primer and must be painted, stained or faux finished as desired.

### Woodgrain Column Structural / Stainable

### Adhesive & Finishing

A urethane-based adhesive such as Loctite® PL Premium® Construction Adhesive\* must be used on all joints when installing urethane products. This will minimize the effects of expansion and contraction on the product. For additional information on adhesives, detailed installation instructions and finishing information, please visit www.fypon.com.
